As the house shook a floor lamp wavered and nearly fell. His own chair shifted more than a foot. Mr. Osterhout said that almost at the moment the tremors started, the person to whom his wife was talking told her of the same conditions in the Greene Ave. section. Published Three Times During the Year by Phi Omega of the Fraternity of Alpha Chi Rho.

Editorial Board:

Frederick W. Henderson.

Lester S. Rounds.

EDITORIAL

NCE again, as we have done in former years, we make a plea for better co-operation between the undergraduate body and the alumni Chapter. We of the resident Chapter feel that those who have earned their sheepskins and gone out into the world would do well to forget business occasionally and drop around to the place in which they spent their college days and spend a few hours talking over the Chapter affairs with the resident Brothers. We are sure that a short time so spent would be profitable to them as well as to ourselves.

Week after week passes without a single Grad ever visiting us. The Chapter holds an initiation, inviting the Grads, and three or four of them turn out. Surely this is not co-operation. With the assistance of the Grads and interest shown by attendance at the Chapter functions or occasional visits to keep in touch with the Brothers, much could be accomplished. We need your more mature judgment and advice, and you, we think, need the resident Chapter, to keep up your loyalty and save you from senility. It's a fifty-fifty proposition, Brothers. Show a little more of the kind of co-operation that keeps your business successful, and together we can make a Chapter that will outshine every other Phi under the Labarum.

The foregoing was written by a member of the undergraduate Chapter in response to repeated requests by Kerux for an editorial. It reflects the thought that seems to be uppermost in the mind of every undergrad.

It is true that the Grads do not drop in at "633" as much as they should, but there must be a reason. In the final analysis, does it not rest with the undergraduate? Does the undergraduate Chapter do anything that makes the Grad want to drop in and co-operate?

All that the Grad hears is that the undergraduate is not making the House pay; that the Chapter hasn't enough men; that there are not

515

enough men living in the House to pay running expenses; that the undergraduates themselves are unable to pay their own incurred debts; that the undergraduates haven't enough interest in the Chapter to support a table at the House or to send a representative sized delegation to Convention.

Still the undergraduate asks for co-operation, and with the foregoing facts in mind, the Grad believes that by "co-operation" the undergraduate really wants the Grad to put his hand in his pocket and help him out.

A business cannot be carried on without sufficient income to pay the overhead. Brotherhood, although an essential to co-operation, cannot pay the bill of the Chapter House. It alone cannot pay taxes and interest on the mortgages held by the hard-hearted banks.

Mr. Undergraduate, it is up to you to put the House on a paying basis; to show Mr. Grad that you are deserving and worthy of his moral aid and mature judgment. Show him you can succeed whether he does or not. Don't worry about saving him from senility. Save yourself from juvenescence first, and we will have a Phi unsurpassed by any other under the Labarum.

Graduate Dinner

P April 29th the members of the Graduate Chapter will hold a dinner in the Grotto of the Columbia Club.

The purpose is not to raise funds, but to get together again and renew friendships. If you are one who feels that it is not worth while to attend, your presence will probably not be missed, but if you believe that friendship really does amount to something, it will do you good to make no other engagement for that evening and plan to be at 4 West 43rd Street at 6:30 P. M. for a good steak dinner at \$2.25 a plate.

Get out your calendar now and jot down the date. If you already have another engagement for that evening, cancel it.

a more comprehensive rushing system than that of the year before, with the result that ten men were pledged. This is an improvement of one hundred per cent over last year's season. So Phi Omega's outlook for the year was pretty bright, except for the usual uncertain factor of our finances, which seem to be forever the boil on the neck of Progress that keeps us from forging ahead.

Aside from this, however, the Chapter has kept its place in campus affairs, with a goodly number of men on teams and in activities. Jimmy Myers, as usual, played on Haughton's team and added another letter to his collection. Our own Spike Olstad was unable this year to go out and take his place on the Varsity crew again, due to his thrice accursed Engineering course. Brother Remy, feeling that this was too much for the House to bear, went out and corralled for himself the job of stroke on the first crew. Not so bad, eh? And now we've got to let you in on a little secret about Walt, which we are sure is going to make that gentleman start out in search for our scalp. And the unfortunate part of it is that we pass him every day on our way to a lecture, and the only way we can escape him is to step behind one of our broad sheltering trees and try to look like a budding hedge. But we are willing to sacrifice all to the interests of Art, so here goes:

As all the undergraduates know, with the exception of the Frosh, who never know anything, Walt never was the House Adonis. He'd walk a mile to get a —er, that is—we mean to avoid one of the fair sex, and if one of them did manage to get him into a corner, he'd stammer and blush as though he'd been caught in the act of robbing the University of one of its just fees. But, after he had his picture taken several times as the "Handsome Stroke of the Columbia Crew," and had bought out the Sunday editions of the Times and the News, he just naturally seemed to lose his head and his sense of proportion and all that, and went and bought himself a new tie.

But, that wasn't all. The climax came when Walt began getting a flock of letters from sundry Barnard girls, asking for his autographed picture and a better acquaintanceship. Well sir, after that you couldn't see Walt's nose, it was up so high. We hear from reliable sources that a very prominent photographer has taken a contract to supply Walt with cabinet portraits at reduced rates. And some wise egg said once that Vanity's name was Woman!

Les Jordan was doing well on the Frosh water polo team until the "Apeman" came to grief on the rocks of ineligibility. Since then he has taken to sitting around the lounge saying: "Well-Il-II, when I was on the water polo team—." His only remark after a verbal or otherwise retaliation is a scornful." "You cause me to fester!"

Rick Hammerstrom looked, as the young lady with us at Varsity Show remarked: "Just too sweet for W-o-r-r-ds!" We doubt if Rick appreciates the compliment.

Johnny. Wirth, by his little indiscretion, has laid himself open to some beautiful copy, but for reasons of our own, (i. e. Johnny can run faster than we can) we are not going to say anything at all about it. We just want to hold him up before the Brothers to remind them that even the best of us fall sooner or later. It is our fervent wish that those who know nothing of this affair will immediately question him about it. Then we can die happy.

The Freshmen have shown an amazing amount of energy lately, extracting lead from their carcasses to the extent of plowing up the garden and planting it with Johnson's Garanteed Central Park Seed. They have filled up the fountain, which never founted anyway, with some strange looking plants, and have posted notices to the effect that none are to step on the grass. Consequently the Brothers read the sign, pull their collars higher about their necks and tell each other that Spring is here. And thus assurred that the gentle season is here, they rush to the phone and make more dates than ever.

To foster the trend of their fancies, the Freshman gave a howling good dance on March the twentieth, which was, as all Phi Omega dances are, an all-round success. The thing that brings most joy to the Brothers is that it was a financial success. The orchestra in which Brothers Rounds and Ackerman play, rendered the necessary music.

The House, through the aid of Brother McGill, has acquired two dogs. One came from the ash can, the other from a fashionable kennel. Patsy, the mutt, and Lady of the Laburum, blooded aristocrat, have taken up quarters in the specially constructed kennel (that is to say, doghouse) in the garden, and we have hopes of them. Personally we prefer the plebian Irish terrier, who is much more educated and sociable than the Lady, but then, I suppose one must be fashionable.

The House has entertained visiting Brothers as usual and held the usual amount of dances, but we are keeping our latchstring out for our Grads and hope they will be able to drop aroun I and see us more. See you at 633!
